

Child exploitation could be happening here

Know how to spot the signs

An adult, touching or behaving intimately with a young person.

Adults often befriending younger people, including buying them food and drinks.

Adults who come in on their own and always target young people.

Adults buying alcoholic drinks that you suspect are for someone under 18.

If you suspect something's not right, report it online, call 101, or 999 in an emergency. Quote **Op Makesafe**
